The Henry J. Kaiser Family Foundation

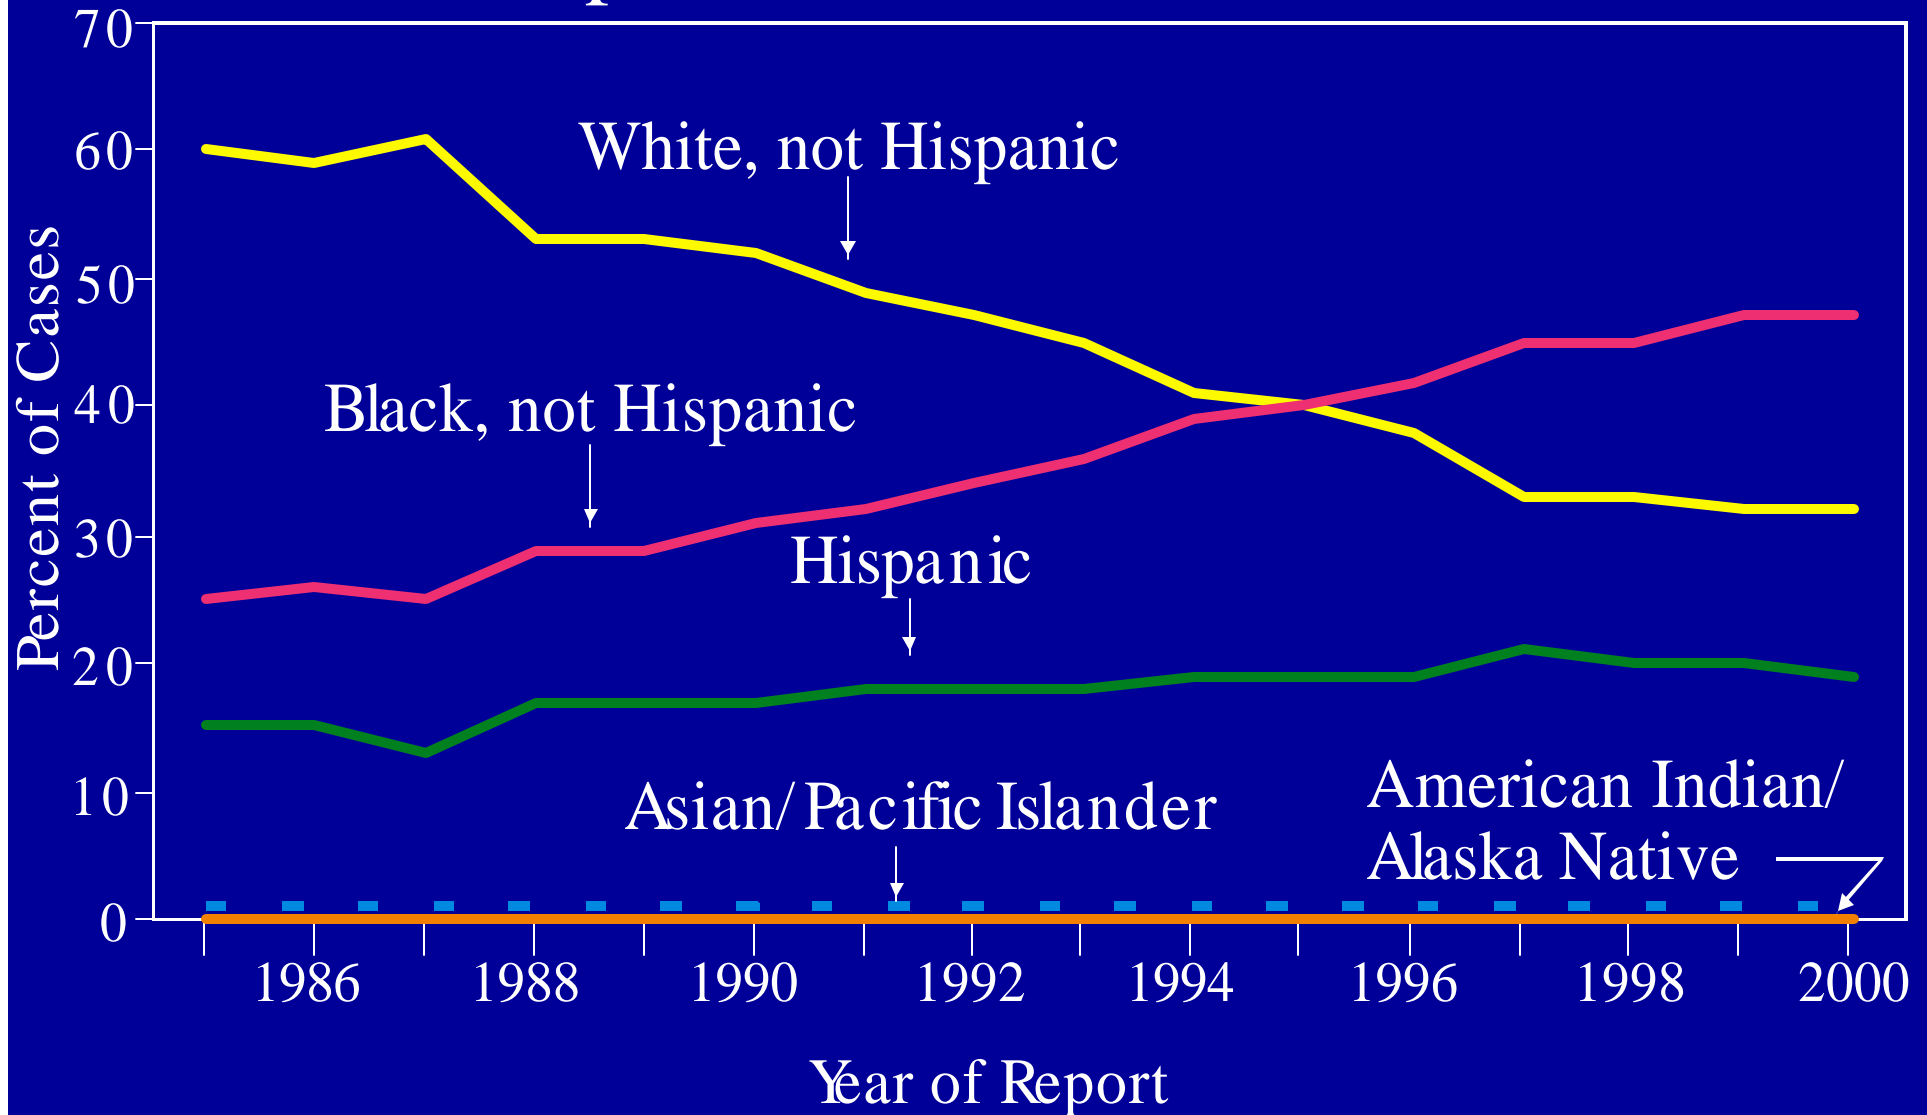

Conference on

Covering the Global AIDS Crisis: New Approaches, New Stories

May 4, 2002

New York, NY

Proportion of AIDS Cases, by Race/Ethnicity and Year of Report, 1985 - 2000, United States

AIDS Cases Reported in 2000 and Estimated 2000 Population, by Race/Ethnicity, United States

AIDS Cases
N= 42,156*

Population
N= 285,863,000

White, not Hispanic
Black, not Hispanic
Hispanic

Asian/Pacific Islander
American Indian/
Alaska Native

*Includes 117 persons with unknown race/ethnicity

AIDS in Blacks and Hispanics

Of the 774,467 AIDS cases reported to CDC through 2000, Blacks and Hispanics accounted for

56% of total

78% of women

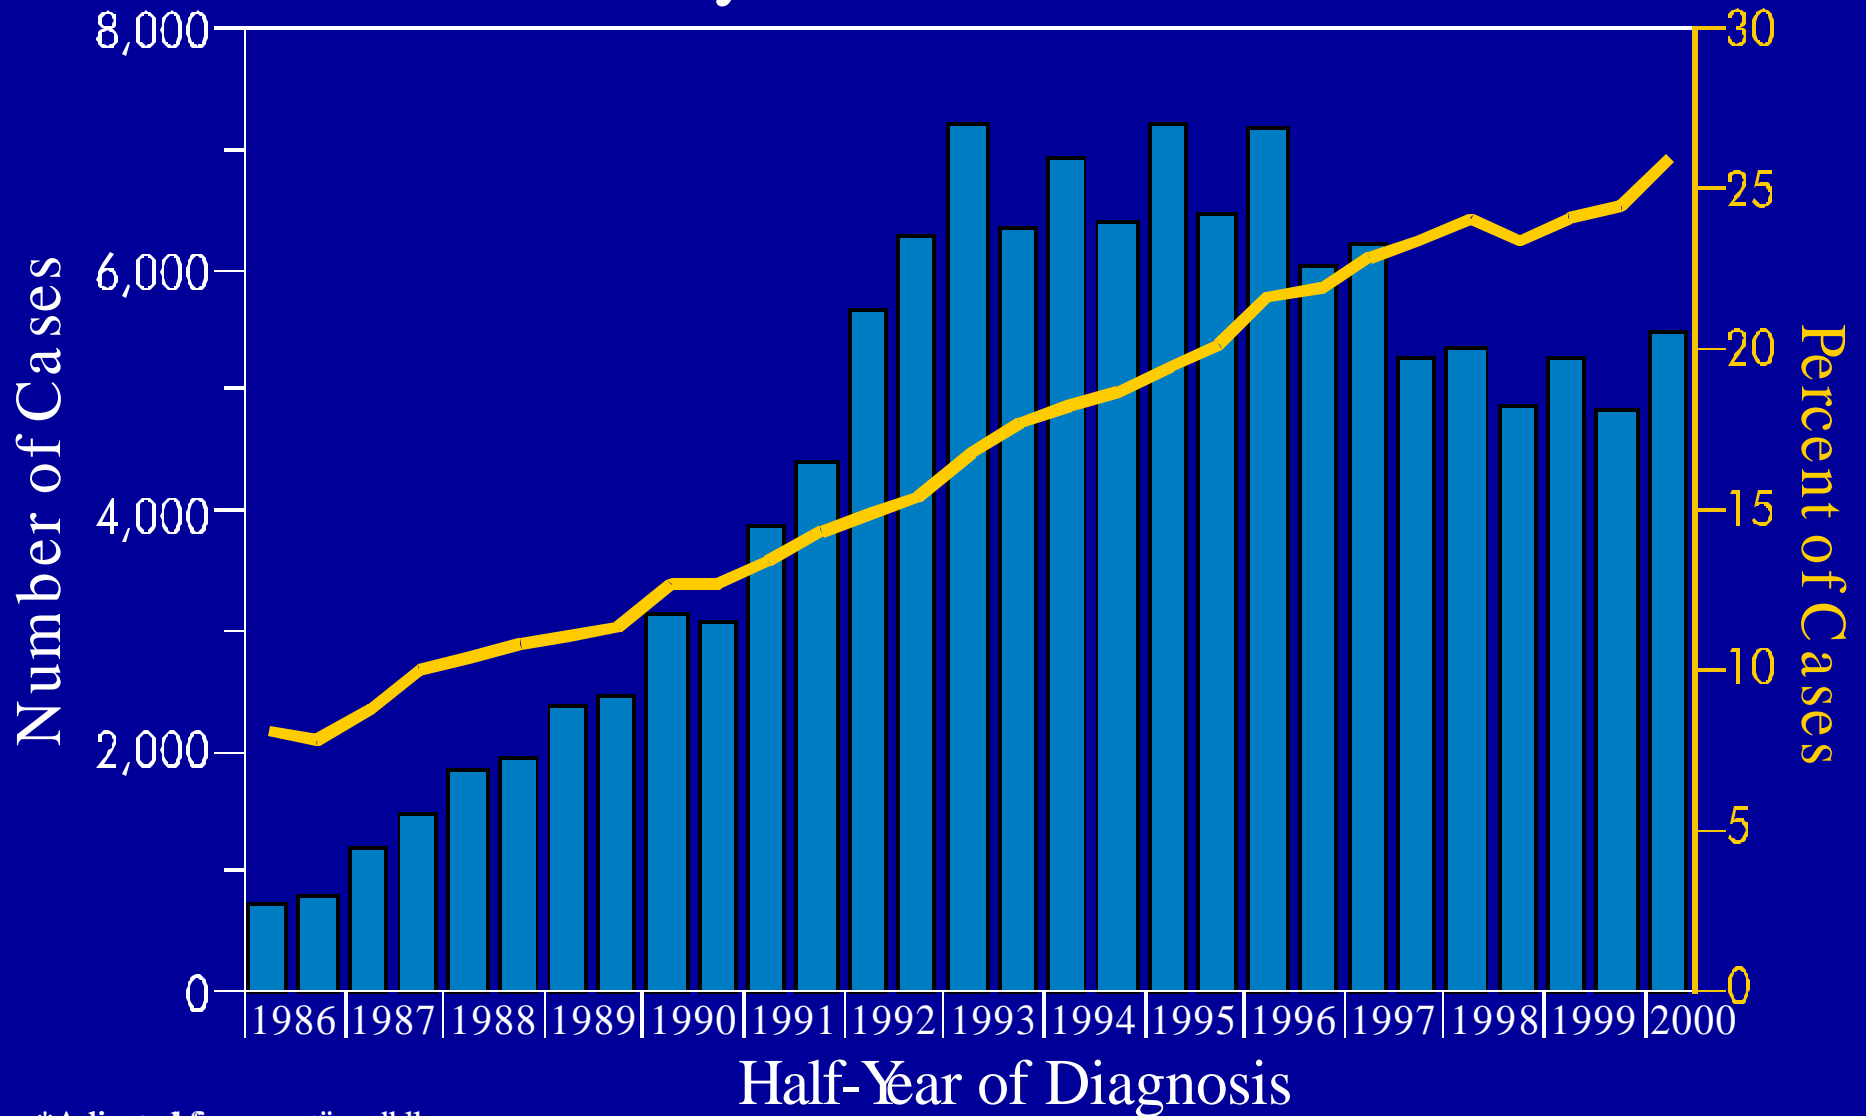

79% of heterosexuals*

82% of children

Of AIDS cases reported in 2000, 66% were among Black and Hispanic adults and adolescents.

*Heterosexual injection drug users and persons with heterosexually acquired HIV

AIDS Incidence* for Women and Percentage of AIDS Cases, January 1986 - June 2000, United States

*Adjusted for reporting delays

AIDS Cases and Rates in Adult/ Adolescent Women, by Race/Ethnicity, Reported in 2000, United States

<u>Race/Ethnicity</u>	<u>Number</u>	<u>Percent</u>	<u>Rate per 100,000</u>
White, not Hispanic	1,895	18	2
Black, not Hispanic	6,545	63	46
Hispanic	1,855	18	14
Asian/Pacific Islander	77	1	2
American Indian/ Alaska Native	68	1	8
<u>Total*</u>	<u>10,459</u>	<u>100</u>	<u>9</u>

*Includes 19 women of unknown race/ethnicity

AIDS Cases in Adults and Adolescents by Exposure Category and Race/Ethnicity, Reported through 2000, United States

<u>Exposure category</u>	White not Hispanic		Black not Hispanic		Hispanic	
	<u>Number</u>	<u>%</u>	<u>Number</u>	<u>%</u>	<u>Number</u>	<u>%</u>
Men who have sex with men (MSM)	223,470	68	78,651	27	48,287	35
Injection drug use (IDU)	39,764	12	102,492	36	50,196	36
MSM and IDU	24,958	8	15,848	6	7,673	5
Heterosexual contact	16,866	5	45,601	16	18,683	13
<u>Other/not identified*</u>	<u>24,551</u>	<u>7</u>	<u>44,699</u>	<u>16</u>	<u>14,823</u>	<u>11</u>
Total	329,609		287,291		139,662	

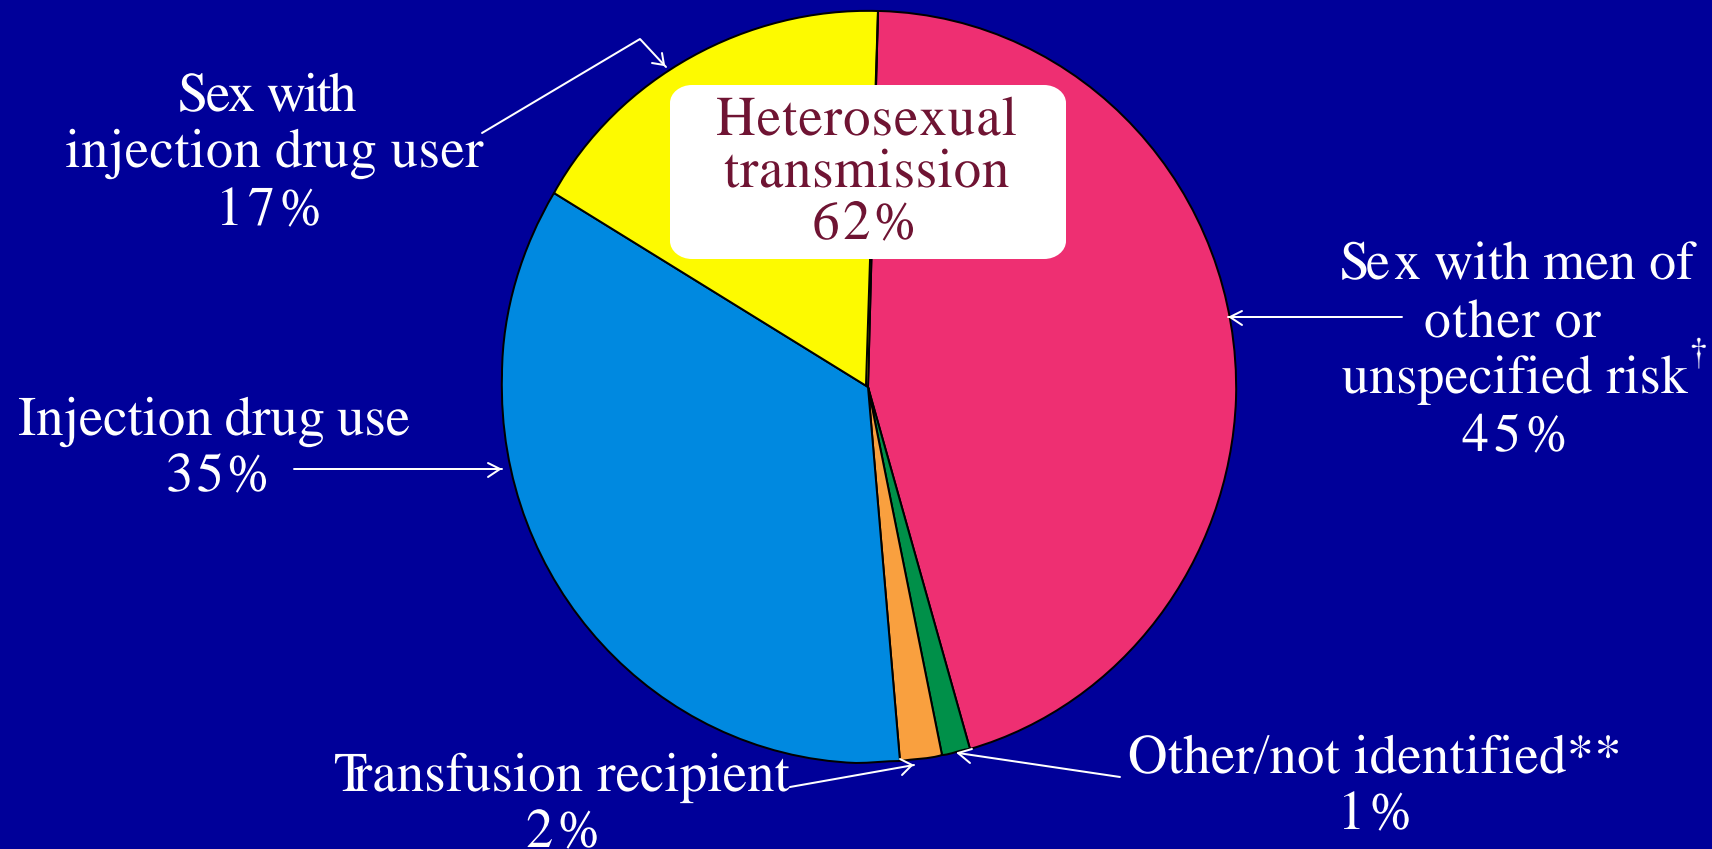

*Includes patients with hemophilia or transfusion-related exposures and those whose medical record review is pending; patients who died, were lost to follow-up, or declined interview; and those with other or undetermined modes of exposure

AIDS Cases in Adults and Adolescents by Exposure Category and Race/Ethnicity, Reported through 2000, United States

<u>Exposure category</u>	Asian/Pacific Islander		American Indian/ Alaska Native	
	<u>Number</u>	<u>%</u>	<u>Number</u>	<u>%</u>
Men who have sex with men (MSM)	3,562	63	1,067	46
Injection drug use (IDU)	368	6	486	21
MSM and IDU	184	3	308	13
Heterosexual contact	544	10	211	9
<u>Other/ not identified*</u>	<u>1,019</u>	18	<u>233</u>	10
<u>Total</u>	<u>5,677</u>		<u>2,305</u>	

*Includes patients with hemophilia or transfusion-related exposures and those whose medical record review is pending; patients who died, were lost to follow-up, or declined interview; and those with other or undetermined modes of exposure

Estimates* of AIDS in Women, by Exposure Category Diagnosed July 1999-June 2000, United States

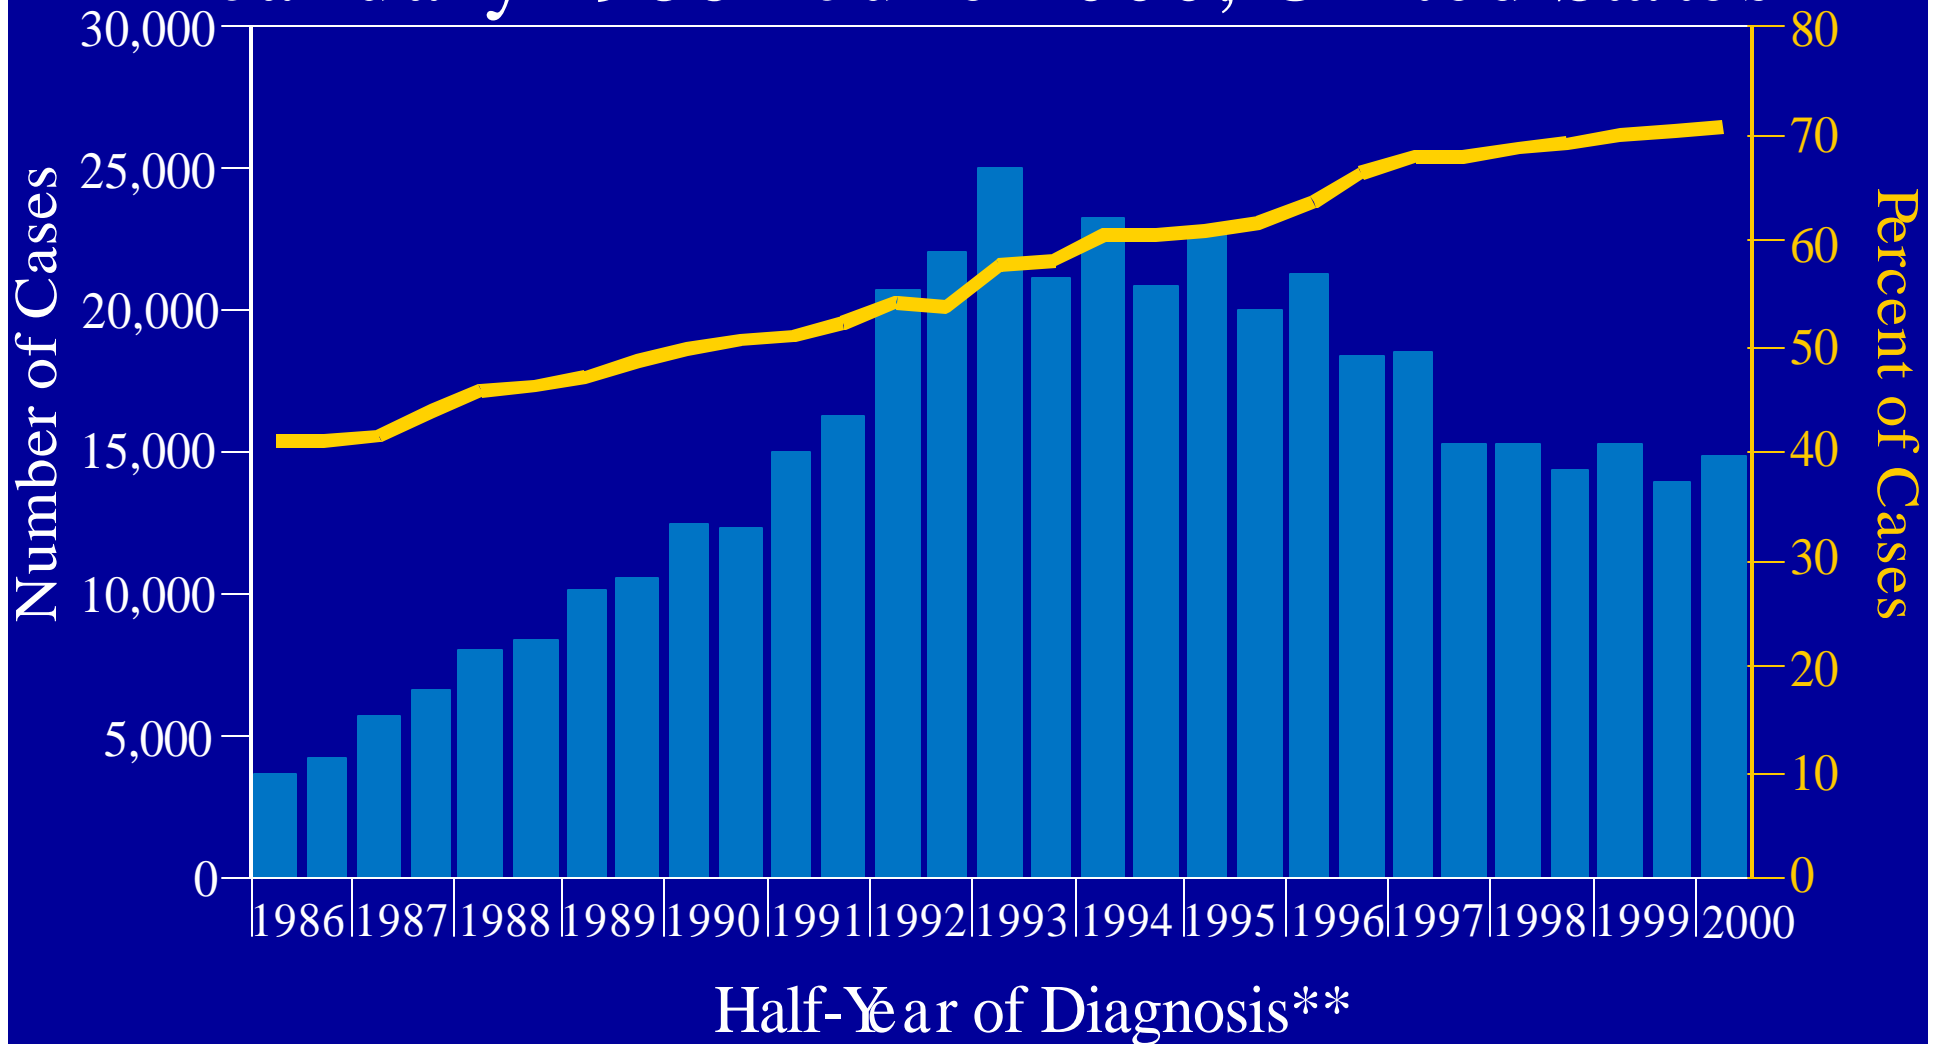

* Data adjusted for reporting delays and estimated proportional redistribution of cases initially reported without risk. Data reported through December 2000.

** Includes patients whose medical record review is pending; patients who died, were lost to follow-up, or declined interview; and patients with other or undetermined modes of exposure

[†] Includes sex with a bisexual male, a person with hemophilia, a transfusion recipient with HIV infection, or an HIV-infected person with an unspecified risk

AIDS Cases in Racial/Ethnic Minorities* January 1986 - June 2000, United States

*Includes Black, Hispanic, Asian/Pacific Islander, and American Indian/Alaska Native persons with AIDS

**Adjusted for reporting delays
