

GOAL OF REFORM

Community Meeting on Health Care with Obama, 4/3/2007

"I am committed to the principle that spending as much money as we are, it is inexcusable that we still have as many uninsured as we do. I believe that by the end of my first term, in office, that we will have a universal healthcare system instituted in this country."

McCain Delivers Address on Health Care Plan, 4/29/2008

"There are those who are convinced that the solution is to move closer to a nationalized health care system. They urge universal coverage, with all the tax increases, new mandates, and government regulation that come along with that idea. But in the end, this will accomplish one thing only: we will replace the inefficiency, irrationality, and uncontrolled costs of the current system with the inefficiency, irrationality, and uncontrolled costs of a government monopoly."
